**Twist Out Cancer** is an international non-profit that provides psychosocial support through creative arts programming. Since 2012 we have impacted over 256,000 people through our online and in person programs.

Our **Brushes With Cancer** program matches artists with those touched by cancer (called "inspirations") to collaborate on a work of art that tells the inspiration's story. To date, our Brushes With Cancer program has yielded over 1300 unique works of art.

**We are offering** high quality prints provided by Right Way Signs that will enliven and inspire your space. Each print comes with a title card that explains the inspiration's story, the artist statement and a QR code linking to a podcast where you can take a deeper dive into the story behind the unique creation.

### How this program enhances the value of your space

We offer two options to receive these prints. You can order one-time prints or subscribe to a quarterly or annual rotation of art prints. And you get much more than art, you also get the inspirational story behind it that can provide personal psychosocial comfort to your patients.
